

Inside St. James: Birding Hot Spots

Waterway Park along the Bittenbender Trail:

Note: Bird feeders are found left of the Pavilion behind the volleyball net. Many benches are available along the flat gravel trail. Also, in early morning, good views from the Waterway Park Pier.

Benches are located near the feeders for optimal viewing without disturbing. Osprey are also in the area.

Consider a \$10 donation to help us supply quality bird seed and suet to these feeders. With your kind support, we will maintain these for years to come, enjoyed by all. Send to address at the bottom of our home page, mark for "birdseed".
